

PrintPro

Build your business

Creator of industrial Art printing

Top 1 manufacturer in china

(Interior decoration)

(Outdoor decoration)

Why PrintPro ?

PrintPro is China's Top 1 source factory in industrial art printing technology.

NO.1

Source Factory

30+

Engineers Team

50+

Distributors

We are the Top 1 factory to specialize in art-level industrial printing, exploring the joy of industrial printing. DTG/F is a key area of our R&D focus, dedicated to bringing art-grade printing effects to apparel.

Our goal is to transform every print on clothing into a masterpiece, delivering a visual experience that rivals works of art.

Join us in pushing the boundaries of creativity and technology, where each garment becomes a canvas for exceptional artistry.

Why Art Printing ?

Bringing More Colors to the Industrial World

Art-Level Color Management

2880 DPI

20 mechanical engineers optimized

9 iterations to achieve art-level refined color.

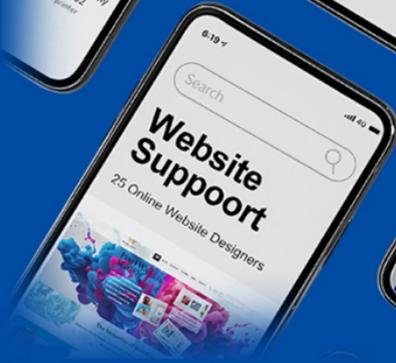

Art-level Appearance

Top1 domestic artists

200+ color adjustments

3 national color certification awards.

Art-level Brand Services

Design drawing support: 25 Online artist,
Delivery within 3 Hours

Marketing support: 10+ Brochures, 50+ HD Videos

After-sales support: 30+ mechanical engineers,
7*24 online service

Different Types of Customers Who Work with PrintPro

Distributors - New category opportunities with huge growth potential

Interior Decoration Company - Innovative solutions to increase efficiency

wall painting designers

Advertising printing company - a new business model, a new entrepreneurial project

Company/personal customization - Let inspiration become reality, rich creative realization

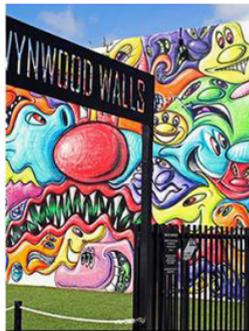

Together,
we explore
new
application
scenarios

Business decor: Office decor, catering, retail, hotels and resorts

House decoration: living room, bedroom, kitchen and bathroom

government and public facilities

Advertising and marketing: outdoor advertising, events and ex

Art and culture: art galleries, museums

Industry and manufacturing: factories and warehouses, technical laboratories

Special applications: Theme parks and playgrounds, religious sites, customized (weddings, birthdays, anniversaries)

The school auditorium

What Can We Print On?

We like to test the limits of ALL our PrintPro printers, below are just some of the surfaces we and our PrintPro Entrepreneurs have had success in printing on:

Wood

Plastic

Athletic Flooring

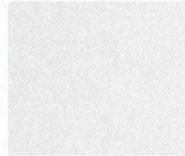

Brick

Acrylic

Vinyl

Canvas

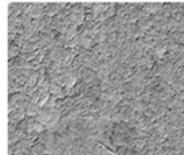

Metal

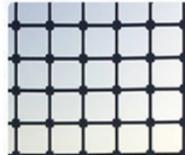

Drywall

Tile

Cinder Block

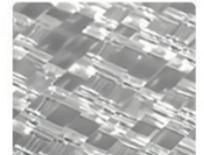

Metal Grating

Concrete

Epoxy

Diamond Plate

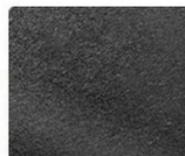

Stucco

Glass

Painted Surfaces

Skateboard Decks

Carpet Tiles

Searching for global distributors we change the industry and change the world together

Your success is our responsibility

Leading industry innovation through collaboration.

One choice, all solved

Professionalism: Excellence in every aspect.
Precision: Attention to detail.
Reliability: Trustworthy and dependable.
Originality: Innovative and creative solutions.

WHAT OUR CUSTOMERS SAY

Customer Name: Emily Johnson

Region: USA

Role: Distributor

Feedback: "The wall printer has transformed our office decor. The high resolution and quick drying time are impressive. The team provided excellent support, ensuring a smooth setup process. Highly recommended!"

Customer Name: Aisha Al-Mansouri

Region: Middle East

Role: Wall Mural Designer

Feedback: "The wall printer has greatly enhanced our store's visual appeal. The ability to print directly on different surfaces is a game-changer. We are extremely satisfied with the machine and the comprehensive support provided."

Customer Name: Thomas Müller

Region: Europe

Role: Interior Decoration Company

Feedback: "Our café walls look stunning with the new prints. The machine's precision and vibrant colors have impressed our customers. The professional service and quick response time from the support team were exceptional."

Customer Name: Siti Nurhaliza

Region: Southeast Asia

Role: Distributor

Feedback: "We used the wall printer for a large mural project, and the results were beyond expectations. The UV printing technology is fantastic, and the team provided outstanding training and support. Our clients are thrilled with the final product."

PrintPro P600

Machine Name	Portable Wall Printer Machine
Model	P600 / P600 PRO
Print Size	Standard height 2.5m/3m, can be customized into 4m, unlimited width
Print Head Manufacturer	EPSON
Print Head Type	DX10/DX7 (optional)
Print Head Quantity	1-3 pieces
Machine Power	350W
Voltage	110V-220V (compatible with mobile power)
Print Resolution	360720dpi / 7201440dpi / 10801440dpi / 14402880dpi
Ink Colors	C-M-Y-K-W (Cyan, Magenta, Yellow, Black, White)
Print Speed	6-15 sqm/h
Main Board	8-core high-speed CPU, 4GB Memory, 120GB SSD
Supported Image Formats	PSD, JPG, JPEG, PNG, TIF, AI, PDF, etc.
Machine Weight	Main machine: 15kg, Guide rails: 6 sections × 8kg, Base shaft: 15kg
Output Mode	Wired transmission, printing controlled by computer
Key Components	1.0m guide rail with 6 sections, 1 laser locator, 2 ultrasonic probes, 3 custom high precision motor, 1 reducer
Apply	Wall Surfaces: Putty walls, latex paint walls, big white walls, imitation porcelain walls Other Materials: Glass, tiles, boards, acrylic, PVC, metal plates, etc.
3D/5D Printing	Supported (can simulate 3D/5D effects)
Wall Detection	Wall detection function automatic hyperboloid sensor, up and down bidirectional Wall detection function detection of ground concave and convex, accuracy up to 1 mm
Data Recovery	Supported (real-time data saving to continue printing after power failure)
Nozzle Inspection	Supported (software checks printhead condition)
Color Calibration	Supported (software adjusts colors)
Print Distance Adjustment	Supported (adjustable print size and distance via software)
UPS Battery Function	Supported (customer can prepare a UPS)
Print Positioning	Supported (laser red cross for precise positioning)
Horizontal Regulation	Supported (track allows horizontal adjustment)
Folding and Disassembly	Supported (1m rail sections, fits in SUV; machine can be disassembled into 3 parts)
Image Mosaic	Supported (seamless picture stitching)

Note: The above specifications are design parameters. In case of any differences, the actual performance and functionality of the machine prevail.

Image Format	PSD,JPG,JPEG,PNG,TIF,Al and PDF etc.
Machine Weight	Main machine 80kg, guide rail 6 * 6kg, base shaft 15kg
Output Mode	Main machine 15kg, guide rail 4 * 8kg, base shaft 15kg
Key Components	1 m guide rail with 6 sections,1 laser locator,2ultrasonic probes,3 Imported servo motor,1 reducer
Apply	Wall Surface:Putty wall surface, Latex paint wall, Big white wall, Imitation porcelain wall Other Media:Glass, tile, board, Acrylic, PVC and metal plates etc.
3D/5D Print Function	Yes (can simulate printing)
Wall Detection Function	Wall detection function automatic hyperboloid sensor.up and down b directional Wall detection function detection of ground concave and convex, accuracy up to 1mm
Data Recovery After Power Failure	Yes (the software stores data in real time and will not scrap the previous print due to power failure)
Nozzle Inspection Function	Yes (software check head condition)
Color Calibration Function	Yes (Software adjust color)
Print Distance Adjustment Function	Yes (print size and distance can be adjusted by software)
UPS Battery Function	Yes(Customer can prepare one)
Print Location Function	Yes (laser red cross positioner to print the picture to the certain position)
Horizontal Regulation Function	Yes (the track has the function of horizontal adjustment)
Folding and Disassembly	Yes (1.5 meters after folding, a SUV car can fit; Machine can be disassembled into three parts for easy move)
Image Mosaic Function	Yes (can achieve seamless picture stitching)

EPSON HIGH-QUALITY PRINT HEADS

EQUIPPED WITH I1600/I3200 OPTIONS TO MEET THE MOST ADVANCED PRINTING DEMANDS.

AUTOMATIC INK ADAPTATION SYSTEM

ADJUSTS INK VOLUME AND SPEED BASED ON THE PRINTING SURFACE, ENSURING OPTIMAL INK BLENDING AND RESULTS.

MODULAR DESIGN

COMPRISING 7 COMPONENTS, ENABLING 5-MINUTE ASSEMBLY AND CONVENIENT TRANSPORT IN 7 SEPARATE PACKAGES.

DUAL-MODE PRINTING

SUPPORTS BOTH HORIZONTAL AND VERTICAL PRINTING TO MEET BROADER MARKET REQUIREMENTS.

7 COLOR OPTIONS

TWO ADDITIONAL COLORS ENHANCE DETAIL REPRODUCTION FOR SUPERIOR RESULTS.

FULLY AUTOMATED OPERATION

FEATURES INCLUDE INK-OUT ALERTS, WHITE INK SELF-CIRCULATION AND AUTOMATIC INK SUCTION FOR SEAMLESS PERFORMANCE.
